Privacy statement Websitebron

We are not a processor for third parties.

Websitebron does not offer hosting services and is therefore not a processor of personal data for third parties. Processing of data by or through the websites that Websitebron creates or maintains for third parties is entirely under the responsibility of the owners of those websites.

Processing of customer data

Websitebron does not use any mechanisms for tracking or identifying visitors on its own website (s). The only cookies we use are so-called 'session cookies', which make the website more user-friendly. They are automatically deleted after your visit.

Data will not be provided to third parties.

Websitebron processes data from its customers according to the register below.

Security

The data is only processed and stored on secure PCs, not in the cloud.

The security consists of passwords, virus scanners, keeping the entire system up-to-date, automatic daily backups in the cloud on a Dutch server, also protected with passwords.

The connection to the back-up server is encrypted, as well as that of the website to the visitors.
